To Christmas in April
Prince Georges County, Inc.

Dear Sirs:

This is to thank Housecaptain Brad Hubbard and his crew for all the work they did at the Christmas in April event at my house on April 30, 2011. The work was very well-organized and very complete. It transformed my house into a much better and safer place to live. I can't thank Christmas in April enough.

I have a long list to be thankful for: the new kitchen tile and the new banister look great. I'm really enjoying cooking on the new stove, I am really grateful to have the damaged furniture and old lumber cleared out and a tremendous amount of drywall hung. A nice lady cleaned the bathrooms and a great deal of work went into improving the lawn and shrubs. The building looks a lot better after power-washing and the garden bricks are so much better after being restored. The pillars have been beautifully repainted.

I'm thankful for all the great electricity and plumbing repairs. I'm delighted to have that shower in use again. Also the doorbell. And the repairs to the porch light, fanlight and kitchen light have lighted up dark areas and made them safer.

I am grateful that the crew cleared out the old tile upstairs and downstairs and left everything clean.

I couldn't have done any of this myself, and am so grateful for all of it. I thank the generous, friendly, courteous, hardworking Christmas in April crew from the bottom of my heart.

Sincerely
Frances Caughey
